A condition has been added to the permit clarifying that hydrostatic test water may not be discharged from pipelines that have been previously used to transport crude oil.

Within 120 days following service of notice of EPA's final permit decision under 40 CFR 124.15, any interested person may appeal this general NPDES permit in the Federal Court of Appeal in accordance with section 509(b)(1) of the Clean Water Act.

Regulatory Flexibility Act

After review of the facts presented in the notice printed above, I hereby certify pursuant to the provision of 5 U.S.C. 605(b) that this general NPDES permit will not have a significant impact on a substantial number of small entities. Moreover, the permit reduces a significant administrative burden on regulated sources.
